Dear Mr. Edwards,

At a February 27, 2018 meeting of the West Barnstable Water Commissioners, we reviewed the proposed Five-Year Vegetation Management Plan submitted by Eversource Energy to the Massachusetts Rights-of-Way Coordinator of the Massachusetts Department of Agriculture.

We voted to send a written response as well as a second letter requesting that Eversource Energy manage the vegetation in its easement/ Right-of-Way through the West Barnstable Water District by mechanical methods only.

Respectfully Submitted,

Kris Clark  
Water Commissioner, Clerk
